The Reversal of Drug Resistance from Bacteria to Cancer Cells

Part - II

Guest Editor: Joseph Molnar

Contents

Multidrug Transporters as Drug Targets	911
<i>X-J. Liang and A. Aszalos</i>	
Cellular Functions of Vaults and their Involvement in Multidrug Resistance	923
<i>E. Steiner, K. Holzmann, L. Elbling, M. Micksche and W. Berger</i>	
Chloroquine Resistance Reversal Agents as Promising Antimalarial Drugs	935
<i>M. Henry, S. Alibert, E. Orlandi-Pradines, H. Bogueau, T. Fusai, C. Rogier, J. Barbe and B. Pradines</i>	
Cancer Cell Permeability-Glycoprotein as a Target of MDR Reverters: Possible Role of Novel Dihydropyridine Derivatives	949
<i>F. Fusi, S. Saponara, M. Valoti, S. Dragoni, P. D'Elia, T. Sgaragli, D. Alderighi and G. Sgaragli</i>	
Tachykinins and their Receptors in Human Physiology and Diseases	
Guest Editor: Carla Palma	
Editorial	961
Overview of the Primary Structure, Tissue-Distribution, and Functions of Tachykinins and their Receptors	963
<i>H. Satake and T. Kawada</i>	
Tachykinin Receptors Antagonists: From Research to Clinic	975
<i>L. Quartara and M. Altamura</i>	
Tachykinins and Neuropsychiatric Disorders	993
<i>L.A. Chahl</i>	
Tachykinins in the Respiratory Tract	1005
<i>D.A. Groneberg, S. Harrison, Q.T. Dinh, P. Geppetti and A. Fischer</i>	
Tachykinins in the Immune System	1011
<i>Y. Zhang, A. Berger, C.D. Milne and C.J. Paige</i>	
Tachykinins: Role in Human Gastrointestinal Tract Physiology and Pathology	1021
<i>G. Improta and M. Broccardo</i>	
Tachykinins and the Cardiovascular System	1031
<i>D.A. Walsh and D.F. McWilliams</i>	
Tachykinins and their Receptors in Human Malignancies	1043
<i>C. Palma</i>
